

computingTM

**ACCELERATE GROWTH.
EXPAND ECOSYSTEMS.
TRANSFORM YOUR BUSINESS.**

2023 Media Pack

THE **CHANNEL** CO.

Computing is the UK's number one media resource for senior and board level IT leaders. High-quality, premium insights and content, both online and at our prestigious conference series forms the core of the Computing brand.

- Premium brand with a key focus on how technology is shaping the agenda of the UK's biggest businesses
- More interviews with CIOs, CTOs and CDOs than any competitor
- Educates and serves its high-end community with incisive analysis of IT trends, analyst-grade, research-driven content, and a market leading conference programme

BRAND AWARENESS AND STRATEGIC VISIBILITY

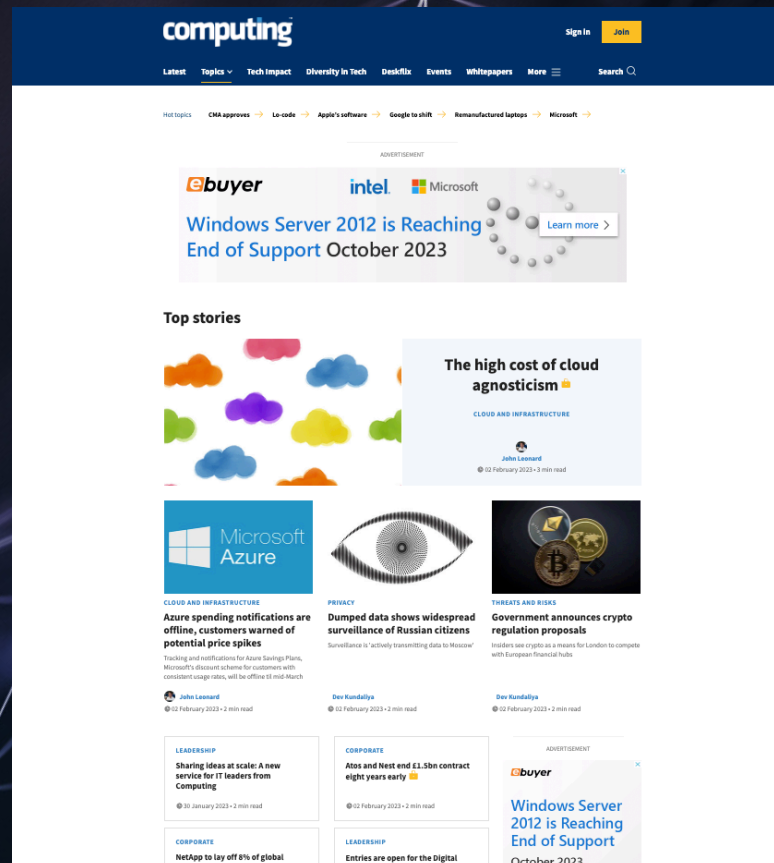

As the leading source of business critical information and data journalism for IT leaders, Computing will help connect your brand with our extensive reach of IT professionals. Computing has consistently innovated to find the best ways to bring timely, accurate insight to its audience of senior technology decision makers and is the UK's number one media resource for senior and board level IT leaders.

DISPLAY

- Reach a highly engaged and active audience that covers the entire enterprise IT buying cycle, from researchers, to technical staff, to C-Level budget holders and business directors.
- Choose the volume of impressions and time frame for coverage. Your adverts will be seen in rotation with other advertisers throughout your chosen time period
- Homepage and site takeovers are a fantastic opportunity to secure high impact and visibility on key campaign dates

£60 CPM across formats

COUNTDOWN BANNERS

- Countdown banners generate a high-level of excitement and awareness leading up to your event. Build by TCC, the banners can run for 1-4 weeks prior to the event and can promote the event and online registrations
- Mix of ad formats, run across the site

£125 CPM

The screenshot displays the homepage of The Channel Co. website. At the top, the CRN logo is prominent. Below it, a navigation bar lists categories: IN THE NEWS, XChange 2018, 2018 ARC, Wendy Bahr, Robbins Q&A, and VC Funding. A large purple banner for 'HYCU The Future of Data Protection Is Almost Here' is featured, indicating a virtual event on February 1st at 11am EST with a 'Register now' link and a countdown timer showing 00 days, 00 hrs, 00 min, and 00 sec. The main content area is divided into two columns. The left column includes an article titled '2018 Annual Report Card Winners: Solution Providers Give Top Marks To Key Vendors' with a sub-header 'ARC Annual Report Card' and a byline 'by Rick Whiting'. Below this is another article 'Head-To-Head: Samsung Galaxy Note9 Vs. Apple iPhone X' by 'Kyle Alspach'. The right column features an article 'Cisco Channel Chief Wendy Bahr To Resign' by 'Matt Brown' and 'Channel Veteran Thomas Jensen Is Leaving HP' by 'Steven Burke'. On the far right, there is a large blue vertical banner for 'INTERMEDIA' with the text 'IT'S MORE THAN THE MARGIN YOU MAKE... IT'S THE PROFIT YOU KEEP' and a 'LEARN MORE' button. At the bottom, a 'TRENDING STORIES' section lists three items: 'Security: 20 Hot Cybersecurity Products Announced At Black Hat 2018', 'Mobility: Review: 5 Things I Love About Microsoft's Surface Book 2', and 'Channel Programs: The 10 Most Controversial Companies Of 2018 (So Far)'.

Developing and curating your database queries is a critical process within most organisations, though there are times when this part of the data lifecycle is handled more as an ad-hoc, solo creative exercise.

NATIVE CONTENT

- Guaranteed editorial coverage of your solutions, written in the trusted and independent voice of Computing to be interesting specifically to your target audience
 - Leverage the expertise and credibility of our editorial team to frame your messaging to be as engaging as possible to your target audience
 - Articles promoted alongside relevant, insight-led news and opinion, allowing for greater response rates by tapping into existing audience relationships
- Exclusive advert tenancy on articles
(billboard, HPU/MPU and wallpapers)

£6,500

DEMAND GENERATION

Convert in-market ITDMs into genuine business prospects through smart, targeted lead generation campaigns. We offer a laser focus on targeting based on job title, industry, company sizes and geographical locations.

CONTENT SYNDICATION

- Content promoted to the relevant segments of our audience via bespoke emails and newsletters
- Users read a detailed synopsis of the content before selecting to read more by inputting their full business card details
- Dedicated campaign manager responsible for the promotion of content and delivery of relevant leads
- Full business card details sent across either weekly or integrated directly into your CRM in real time
- Content required (min. 1 asset): Whitepapers, case studies, videos, product guides
- Additional profiling questions and qualification criteria can be added (subject to increased CPL)

£55 CPL

PERFORMANCE MARKETING

Harness the power of content marketing using our dedicated in-house team of digital enablement specialists who are fully immersed in the technology markets through a deep heritage of lived experience. Deep specialisms and relationships developed over decades mean we truly understand the needs, pain points and opportunities of our audiences.

WHITEPAPER

- Computing to deliver exclusive market insights across relevant customer audiences to help position you as a thought leader
- Survey to be sent to relevant segments of our databases to gather valuable insights into common challenges and pain points faced by IT leaders in a specific area
- Data from the survey to form basis of an exclusive co-branded whitepaper, which will be layered with sponsor perspectives and interview excerpts with selected customers (optional)
- Report promoted extensively across relevant segments of our audience (via online ads and bespoke emails) to maximise views and generate 100 download leads

£18,000

Whitepapers

New apps for old

This Computing whitepaper examines the pain points associated with application deployment and management in an increasingly hybrid and rapidly changing IT environment. In particular, it looks at how companies striving for digital transformation are adopting new technologies to achieve those aims, from prioritising mobile support to data-driven process automation and AI, and at the impact these are having on development schedules.

- Organic social media promotion and paid Twitter promotion

£55,000 per quarter

Identity and Access Management Hub

Identity and Access Management (IAM) complex area. Businesses

often have multiple IAM solutions in place and integrating these in a way that is easy to use, without compromising on security, can be a challenge.

As the ongoing effects of the Covid-19 pandemic continue to accelerate digital transformation, and tougher data security regulations puts greater pressure on organisations, they are quickly realising robust IAM is as much about user experience and manageability as it is cyber security.

This hub, in partnership with Okta, will explore the range of issues affecting IT leaders at various stages of their IAM journeys. With a particular focus on the fintech and financial services industries, it will delve into both the opportunities and the barriers when it comes to IAM adoption, what IT pros are doing to ensure ease of use, and how all of this can help them win over users.

It will also ask how organisations can look beyond regulatory compliance and see IAM as an opportunity for innovation.

£28,000

INTENT-BASED ABM TARGETING

Leverage our integrated data marketing platform which provides a connected view across digital, content and events all using our first party data. Built by us from scratch, specifically for B2B, our ABM platform Nexus marries our exceptional reputation in the market with our audience relationships and first party data to provide campaigns that truly nurture and are based on intent and behavioural insights.

Account analysis and enrichment

- We can show you what your target customers are consuming across our sites (which articles they're reading, what subject matters they're interested in) as well as how they are consuming it (reading articles, downloading whitepapers, watching webinars, attending events etc.)
- Data-driven insights into behaviour and intent to be delivered via a fully transparent client-branded Power BI Nexus dashboard
- These intent-based learnings can form the basis of a content-driven nurture campaign that leverages the most relevant engagement tactics

Always on nurture programs

- We will create a digital, social and content campaign based on what your target account list is interested in and consuming across our sites
- Using a combination of custom Computing content as well as digital, social and email targeting, we will nurture your accounts down the funnel and deliver company-level insights on engagement levels via a real-time dashboard

Real world engagement

- Identify, influence and win bottom of the funnel leads through to convert high-scoring companies into qualified leads
- Invite the most engaged companies to a bespoke single-sponsor event, to confirm mutual interest and secure new partnerships
